Members (Active),
Pakistan Solar Association,Subject: **Display / Circulation of Final Voters' List and Submission of Nomination Papers for
Executive Committee – PSA Elections 2026 – 2028**

Dear Members,

Pursuant to the approved Election Schedule 2026–2028 issued by the Pakistan Solar Association and **Rule 18(8) of the Trade Organizations Rules, 2013**, the attached list bearing reference **PSA/VL/2026/001/22/08/2026** is hereby displayed and circulated on **22nd August 2026** as the Final Voters' List for the current election process. The list shall govern voting and nomination rights for the PSA Elections 2026 – 2028, subject always to any binding order, direction or decision of the Regulator / Directorate General of Trade Organizations (DGTO) issued under the applicable law.

During the provisional voters' list stage, the Secretariat received submissions, explanations and supporting documents from several member firms / companies whose membership, renewal, continuity of membership, representative status or electoral eligibility required further examination. The relevant record has been reviewed against the Trade Organizations Act, 2013 (as amended), the Trade Organizations Rules, 2013, the registered Memorandum & Articles of Association of Pakistan Solar Association (PSA), the approved Election Schedule 2026 – 2028 and the available official membership record.

The determinations reflected in the Final Voters' List have also been made after due consideration of the legal opinions and advice obtained by PSA from **Kharal & Co., Legal Consultant to Pakistan Solar Association**, and **SK Juris & Co., independent legal consultant**. Those opinions have been treated as professional legal guidance for the application of the governing law to the facts and documents placed before the Secretariat. The administrative determinations remain those of the competent PSA authority and are subject at all times to the statutory jurisdiction of the Election Commission and the Regulator / Directorate General of Trade Organizations (DGTO), as applicable.

For clarity, the approved Election Schedule provided the following voter – list grievance sequence: **objections to the provisional voters' list up to 27th July 2026; Secretary General's decision / intimation by 1st August 2026; representation by an aggrieved person to the Election Commission by 4th August 2026; Election Commission decision by 7th August 2026; and appeal to the Regulator / DGTO by 10th August 2026. The schedule placed 20th August 2026 as the last date for the Regulator's decision on a voters' list appeal, followed by display of the Final Voters' List on 22nd August 2026.**

As per the Secretariat record available at the time of issuance of this circular, no representation / observation was received for determination by the Election Commission within the notified period, and no DGTO direction or order altering the recorded position has been received by PSA as of 22nd August 2026. This statement is without prejudice to any valid regulatory communication that may subsequently be received.

Under Rule 18(7), a decision of the Regulator on a voters' list appeal is final for that statutory stage. In addition, Article 58 of the PSA Articles provides that a dispute concerning interpretation or scope of the Articles which cannot be resolved by the Association is to be referred to the Regulator, whose ruling is binding on PSA, its office-bearers and members. Accordingly, any binding DGTO / Regulator decision or direction within lawful jurisdiction shall prevail over an inconsistent internal determination and shall be implemented by PSA.

Members are specifically informed that inclusion of a name / member firm in the provisional voters' list was provisional in nature and did not constitute a final adjudication of electoral eligibility or create an irreversible right to vote, propose, second or contest. The provisional stage exists precisely so that the underlying membership and voter record can be verified and corrected before issuance of the Final Voters' List.

Accordingly, certain cases that were included in the provisional voters' list have not been carried forward into the Final Voters' List after subsequent documentary verification and consideration of the legal opinions referred to above. Such exclusion may arise where the verified record shows that the member did not satisfy the applicable membership / renewal conditions, qualifying membership period, representative-status requirements, tax-registration / filing requirements where applicable, or another statutory eligibility condition on the relevant cut-off date. Nothing in this circular prevents an affected person from availing any remedy that remains legally available before the Election Commission, DGTO / Regulator or other competent forum under the governing law within the applicable timelines.

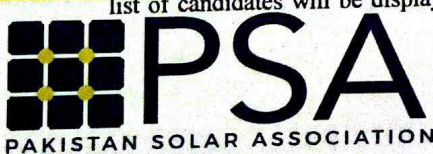

If, after circulation of the Final Voters' List, a clerical, typographical, transcription, duplication, data-entry or other manifest record error is identified, the Secretary General may issue a corrigendum / addendum after verification of the underlying record and in consultation with PSA's legal counsel and the Election Commission. Every such correction shall be reasoned, recorded and circulated through the same official channels used for the Final Voters' List.

For avoidance of doubt, this correction mechanism shall not be used by the Secretary General to make an unilateral substantive addition or deletion that changes a member's electoral eligibility after finalization where the matter is required by Rule 18 to be determined by the Election Commission or the Regulator. Any substantive alteration affecting voting rights, nomination rights or the composition of the Final Voters' List shall be made only in accordance with the applicable statutory procedure, a decision of the Election Commission where it has jurisdiction, or a binding direction / order of DGTO / the Regulator.

In accordance with Rule 18(9), the last date for receipt of nomination papers for regular Executive Committee seats is 26th August 2026. The prescribed Nomination Form is enclosed with this circular as Annexure-B and can be downloaded from the PSA website (in word format). Each candidate should ensure that the complete, signed and supported nomination package reaches the PSA Secretariat on or before the notified deadline.

Rule 18(9) requires every nomination to be signed by the candidate and duly proposed and seconded by duly registered voters. The candidate, proposer and seconder must therefore be verifiable against the Final Voters' List and must satisfy the legal capacity in which they seek to exercise the relevant electoral right.

Nomination papers will be scrutinized by the Election Commission on 27th August 2026 and the provisional list of candidates will be displayed in accordance with Rule 18(11). Any objection to a nomination may be

filed with the Election Commission by 28th August 2026 under Rule 18(12). The Election Commission is scheduled to decide such objections by 30th August 2026.

Thereafter, under Rule 18(13), a candidate aggrieved by the Election Commission's decision, or by its failure to decide within the prescribed period, may file an appeal to the Regulator / DGTO by 1st September 2026. The Election Schedule places 8th September 2026 as the last date for the Regulator's decision and 10th September 2026 for issuance of the final list of Executive Committee candidates, subject to the statutory provisos where no appeal is filed.

Accordingly, during nomination scrutiny and, where lawfully raised, during determination of a challenged vote, the Election Commission may call for and rely upon a written verification / certification from the PSA Secretariat and official supporting records. A nomination may be rejected, or a challenged vote may be disallowed from counting, where the Commission records a lawful eligibility defect. The relevant grounds may include, without creating any new disqualification beyond the Act, Rules and PSA Articles:

- a. Membership inactive, discontinued, lapsed or not validly renewed in accordance with Rule 11 and the applicable DGTO extension / direction, if any;
- b. Failure to complete the applicable qualifying membership period on the date of announcement of the election schedule: ordinarily two years of valid membership for a new member under section 10(7) of the Act / Rule 15(1)(a), while an old member whose membership was discontinued for non-payment is subject to the separate one-year re-enrolment rule in section 10(7), subject to the facts and any binding DGTO direction;
- c. Failure of the proposed voter / candidate to establish the representative status permitted by Rule 15(2) & (3), including current proprietorship, partnership, directorship, or the prescribed authorization in the case of a public limited company / multinational corporation;
- d. Absence of a valid NTN, or sales-tax registration where applicable, or failure to establish the tax-return / sales-tax filing evidence required for membership renewal under Rule 11(5);
- e. Non-provision of current SECP / corporate documents (Year 2026) where such deficiency prevents the Secretariat or Election Commission from confirming a statutory eligibility requirement.
- f. Non-payment of applicable membership dues or an unresolved break in continuity of membership affecting voting eligibility;
- g. A conflict, disqualification or incompatibility that is expressly recognized by the Trade Organizations Act, the Rules, PSA Articles or a binding DGTO direction.

The published Final Voters' List remains the primary electoral record. Any question arising at the polling stage that would in substance require alteration of that list should be dealt transparently, with written reasons and through the procedure available under the Rules, rather than by an unrecorded administrative exclusion at the polling desk.

To facilitate uniform verification and scrutiny, candidates are requested to submit the below mentioned documents. These documents are verification / supporting evidence intended to establish membership.

members, authorized polling / Secretariat personnel and other persons acting within the statutory election process shall be entitled to the benefit of that protection to the extent its legal conditions are satisfied.

Separately, Article 54(1) of the PSA Articles of Association provides that every office-bearer, Secretary and other officer or servant of the Association is to be indemnified by the Association, out of Association funds, against costs, losses, penalties and expenses arising from contracts, acts, deeds or omissions undertaken in good faith in discharge of duty.
